CODE OF CONDUCT

Please consider the rights of others and observe the anglers code of conduct

- Always ask permission from the land occupier before crossing private property unless a Fish & Game access sign is present.
- Do not park vehicles so that they obstruct gateways or cause a hazard on the road or access way.
- Always use gates, stiles or other recognised access points and avoid damage to fences.
- Leave everything as you found it. If a gate is open or closed leave it that way.
- A farm is the owner's livelihood and if they say no dogs, then please respect this.
- When driving on riverbeds keep to marked tracks or park on the bank and walk to your fishing spot.
- Never push in on a pool occupied by another angler. If you are in any doubt have a chat and work out who goes where.
- However, if agreed to share the pool then always enter behind any angler already there.
- Move upstream or downstream with every few casts (unless you are alone).
- Fish being returned to the water should be released as carefully and quickly as possible. Ideally leave the fish in the water and remove the hook with long-nosed pliers without handling the fish.
- While catch and release fishing is widely promoted by some as a conservation minded approach to angling it remains the angler's choice. However, the catching of large numbers of fish in a day can impact on individual fish and also on the angling experience for others. Fish & Game advocate hooking and landing a limited number of fish per day.
- Fish being retained should be killed as quickly as possible, ideally by spiking or stabbing the brain slightly behind and above the eye (also known as iki jime – pronounced "iki jimi").
- Always respect the environment, wildlife, other anglers and members of the public.
- Remove waste nylon and personal litter from the river banks and parking places.
- The only way we can protect our rivers in the long term is to CHECK, CLEAN and DRY all your gear before entering another river or lake anywhere in New Zealand.

REMEMBER TO TREAT OTHERS AS YOU WOULD WISH TO BE TREATED YOURSELF!

NATIONAL REGULATIONS

THE SPORTS FISHING REGULATIONS

These regulations are set to ensure that:

- fish populations are maintained and that the number of fish caught does not threaten the sustainability of the fishery
- the quality of the fishing experience is maintained
- spawning areas are protected
- angling opportunities are not unnecessarily restricted
- incompatible methods of fishing are kept separate
- anglers use sporting methods.

The main angling rules and catch limits are shown in this booklet, but there are other rules in the Conservation Act, Freshwater Fisheries Regulations and other legislation which affect sports fishing. For example, a current fishing licence is required to fish for the species listed in the First Schedule, and it must be carried with anglers at all times when fishing. The licence is to be produced upon demand by a Fish & Game Ranger.

If you are in any doubt about sports fishing regulations, please contact your local Fish & Game office.

These regulations are approved by the Minister of Conservation on the advice of the 12 regional Fish and Game Councils. The Fish & Game licence allows an angler to fish New Zealand wide (except Taupō) and every attempt has been made to make the regulations as consistent nationwide as possible.

If it's wet it's a threat.

Freshwater weeds, pest fish and didymo can ruin our favourite fishing spots.

All it takes is a tiny fragment of weed, a droplet of water or a single fish egg to spread them, and they can survive in moist conditions for a long time.

So, **Check Clean Dry** your gear when moving between waterways.

Check and remove anything you can see from your gear

Clean your gear thoroughly with detergent solution
– 5% dishwash detergent is fine

Dry and leave for 48 hours

We are lucky to have great places to fish in New Zealand, and it takes all of us anglers to do our bit to look after them.

ANGLERS NOTICE FOR FISH AND GAME REGIONS 2021

CONSERVATION ACT 1987 FRESHWATER FISHERIES REGULATIONS 1983

Pursuant to section 26R(3) of the Conservation Act 1987, the Minister of Conservation approves the following Anglers Notice, subject to the First and Second Schedules of this notice, for the following Fish and Game Regions:

Northland	Taranaki	North Canterbury
Auckland/Waikato	Wellington	Central South Island
Eastern	Nelson/Marlborough	Otago
Hawke's Bay	West Coast	Southland

NOTICE

This Notice shall come into force on the 1st day of October 2022.

1. APPLICATION OF THIS NOTICE

- 1.1** This Anglers Notice sets out the conditions under which a current licence holder may fish for sports fish in the area to which the notice relates, being conditions relating to—
 - (a)** the size and limit bag for any species of sports fish;
 - (b)** any open or closed season in any specified waters in the area, and the sports fish in respect of which they are open or closed;
 - (c)** any requirements, restrictions, or prohibitions on fishing tackle, methods, or the use of any gear, equipment, or device;
 - (d)** the hours of fishing;
 - (e)** the handling, treatment, or disposal of any sports fish.
- 1.2** This Anglers' Notice applies to sports fish which include species of trout, salmon and also perch and tench (and rudd in Auckland /Waikato Region only).
- 1.3** Perch and tench (and rudd in Auckland /Waikato Region only) are also classed as coarse fish in this Notice.
- 1.4** Within coarse fishing waters (as defined in this Notice) special provisions enable the use of coarse fishing methods that would otherwise be prohibited.
- 1.5** Outside of coarse fishing waters a current licence holder may fish for coarse fish wherever sports fishing is permitted, subject to the general provisions in this Notice that apply for that region.

FIRST SCHEDULE

Fishing conditions generally common to all Fish and Game Regions.

SECOND SCHEDULE

Regional specific fishing conditions, bag limits, closed and open waters, and the like.

FIRST SCHEDULE

(applies to all regions except Taupō)

1. INTERPRETATION

Words and expressions in this notice, which are defined in the Conservation Act 1987, the Freshwater Fisheries Regulations 1983 or the Sports Fish Licences, Fees, and Forms Notice 2022, shall be so defined.

“*assembled rod*” means a rod that is assembled from butt to tip, together with a line and lure attached.

“*all methods*” means any artificial fly, or spinner or bait.

“*artificial fly*” means any lure of feather, fur, wool or other material of any kind customarily used in the making of artificial flies.

“*bait*” means:

- Natural insect.
- Natural spider.
- Natural worm or worms.
- Natural crustacean.
- Natural fish, excluding fish ova, or any portion of a fish, or shellfish (mollusc), except where stated otherwise in the Second Schedule of this notice.
- Uncoloured bread dough.
- Any scented lure, soft bait and other synthetic imitations with chemical attractant properties, except where stated otherwise in the Second Schedule of this notice.

“*bait assembly*” means either a hook rigged with a number of baits or a single bait rigged with a number of hooks.

“*bait fishing*” means to fish for sports fish with bait.

“*boat*” means any manned flotation device.

“*closed*” means no fishing is permitted.

“*coarse fish*” means perch, tench (all New Zealand) and rudd (Auckland/Waikato Fish and Game Region only).

“*coarse fishing waters*” means named locations where anglers can fish for coarse fish with:

- (a) a rod which has either a fixed or running line.
- (b) no restriction on the type or number of baits in use.
- (c) no restriction on the use of preparations to attract fish.

“*daily bag limit*” means the total number of sports fish that may be taken or killed by any one person during any one day.

Regulations

“*fishing*” and “*fish*” in this notice means:

the catching, taking or harvesting of sports fish; and includes any:

- (a) other activity that may reasonably be expected to result in the catching, taking or harvesting of sports fish.
- (b) attempt to catch, take or harvest sports fish.
- (c) operation in support of, or in preparation for, any activity described in this definition.

“*freshwater*” means

- (a) all waters of rivers, streams, lakes, ponds, lagoons, wetlands, impoundments, canals, channels, watercourses, or other bodies of water whether naturally occurring or artificially made.
- (b) all waters of estuaries or coastal lagoons.
- (c) all other fresh or estuarine waters where freshwater fish indigenous to or introduced into New Zealand are found.
- (d) all waters in the mouth of every river or stream, and the mouth of every river and stream shall be deemed to include every outlet thereof and the seashore between those outlets and the waters of the sea or lying within a distance of 500 metres from any place where at low tide the waters of a river or stream meet the waters of the sea.

“*fly fishing*” means to fish for sports fish with fly rod and fly reel and fly line and artificial fly.

“*foul hook*” means to hook a sports fish other than from within the mouth.

“*junior fishery*” means a named location where only the holder of a child or junior licence can fish.

“*landmark*” means a black, yellow and white ringed post or buoy.

“*length*” is the measurement from the tip of the snout to the fork of the tail.

“*legal lure*” means any authorised artificial fly or spinner or bait.

“*sea run salmon waters*” means those waters in the North Canterbury and Central South Island Fish and Game regions to which the Sea Run Salmon Season Bag Limit Notes apply.

“*season bag limit*” means the total number of sports fish that may be taken or killed by any one person between the 1st of October and the 30th of September.

“*season bag limit card*” means a card upon which anglers taking or killing sports fish in Fish and Game regions that have a season bag limit must legibly record the date, name of water, sex (as can best be determined by the angler), weight in kilograms and length in centimetres of the fish, and whether it was fin clipped.

“*spin fishing*” means to fish for sports fish with a spinner.

“*spinner*” means any artificial lure other than an artificial fly.

“*sports fish*” means those freshwater fish described in the First Schedule of the Freshwater Fisheries Regulations 1983, namely:

- Brown trout.
- Rainbow trout.
- American brook trout or char.

- Lake trout or char.
- Atlantic salmon.
- Quinnat or chinook salmon.
- Sockeye salmon.
- Perch.
- Tench.
- Rudd (Auckland/Waikato Fish and Game Region only).
- Any hybrid of the above species.

“zero bag limit” means fishing is permitted but no fish may be kept.

2. AUTHORISED TACKLE

2.1 No licence holder shall fish for trout or salmon except by using a rod and running line and authorised method (as defined in clause 8 of this First Schedule).

2.2 Nets and gaffs:

2.2.1 When playing a sports fish, a landing net may be used to secure or land that fish.

2.2.2 For keeping coarse fish alive, a keep net may be used in the water from which the fish was caught.

2.2.3 No licence holder shall use a gaff to secure or land a sports fish except where provided for in the Second Schedule of this notice.

2.3 No licence holder when fishing for sports fish shall:

2.3.1 Use more than 1 assembled rod and running line.

2.3.2 Use more than 3 artificial flies or spinners.

2.3.3 Use more than 1 bait assembly.

2.3.4 Be more than 15m from the rod being used, except where stated otherwise in the Second Schedule of this notice.

2.3.5 Use in waters other than those where bait fishing is permitted any lure treated with any chemical preparation other than that used solely to control the buoyancy of an artificial fly, except where stated otherwise in the Second Schedule of this notice.

2.3.6 Use any preparation not attached to a lure to attract fish except when fishing for coarse fish in coarse fishing waters.

2.4 No person shall fish for sports fish by using felt-soled waders or footwear incorporating or having attached a sole of felted, matted or woven fibrous material when sports fishing.

3. FOUL HOOKING OF FISH

3.1 No licence holder shall attempt to foul hook any sports fish.

3.2 Any licence holder who foul hooks a sports fish shall return it immediately to the water with as little injury as possible.

Regulations

4. FISH LENGTH

Every licence holder who catches a sports fish which does not exceed the specified minimum length, or exceeds the specified maximum length, shall immediately return it with as little injury as possible into the water from which it was taken.

5. OPEN SEASON

No licence holder shall fish for any sports fish except during an open season.

6. DAILY BAG LIMIT

6.1 No licence holder shall continue to fish for a particular species of sports fish on any day in which he or she has already killed the limit bag for that species except where provided for in the Second Schedule.

6.2 It shall be permissible to make up the difference between a lesser limit bag prescribed in one place and a higher limit bag prescribed in another if the extra fish are taken in the area with the higher bag limit.

7. SEASON BAG LIMIT

No licence holder shall continue to fish for sports fish in any season in which he or she has already killed the season bag limit for that species, except where provided for in the Second Schedule.

8. AUTHORISED METHODS

Authorised methods (subject to any regional restrictions specified in the Second Schedule) are:

- Artificial fly (**F**).
- Bait (**B**).
- Spinner (**S**).

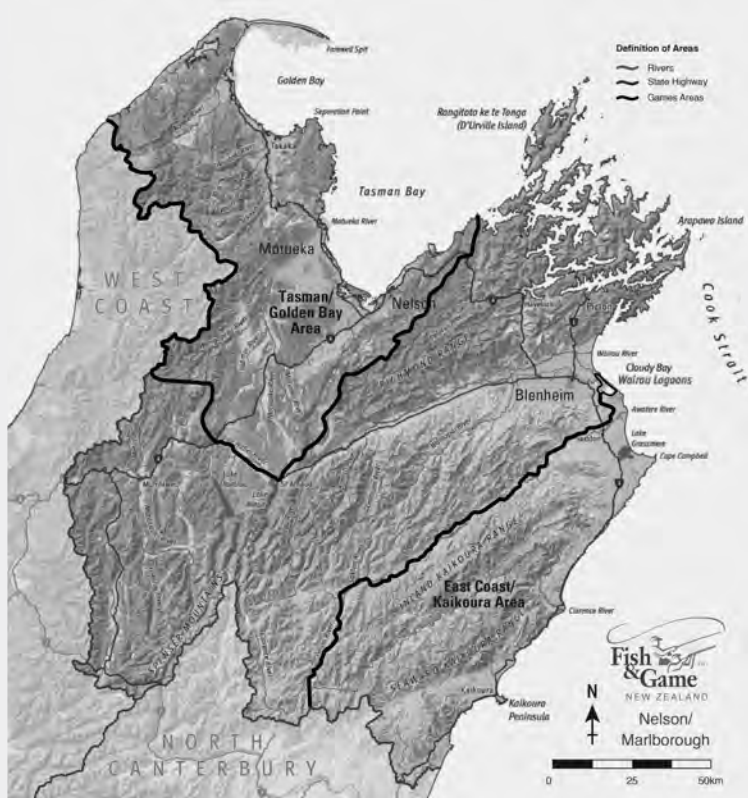

SECOND SCHEDULE

(APPLIES ONLY IN THE SPECIFIED REGION)

NELSON/MARLBOROUGH - Fish & Game Region⁸

Office: 66-74 Champion Road, Richmond
Postal Address: PO Box 2173, Stoke, Nelson 7041
Phone: (03) 544-6382
Fax: (03) 544-4058
Email: nelsonmarlborough@fishandgame.org.nz
Administration: Karen Crook
Manager: Rhys Barrier
Field Officers: Jacob Lucas, Lawson Davey (Nelson)
Vaughan Lynn (Blenheim)
Blenheim Office: Grovetown Park
Phone: (03) 578-8421

⁸ The Nelson/Marlborough region is defined here: *New Zealand Gazette*, 24 May 1990, No. 83, page 1861.

Fish & Game New Zealand's Nelson/Marlborough region offers some of the best, most easily accessible brown trout fishing in the country. In fact, many of New Zealand's fishing guides who specialise in sighted brown trout fishing, work in this region. There is wonderful diversity reflected in the waters of Nelson/Marlborough. Rivers in the Golden Bay area are crystal clear in normal flows and dark brown in freshes from tannic acid leaching out of the native bush catchments. Waimea basin catchments rise in the steep beech clad Richmond and Arthur ranges before flowing through intensely farmed lands growing pine trees, apples, kiwifruit and hops. The Murchison district offers everything from small feeder streams to the impressive Buller River. The Buller is New Zealand's fifth largest river, originating from the alps in the Nelson Lakes National Park. The run off and snow melt from these mountains flow into Lakes Rotoiti and Rotoroa. The two Lake outlets, although currently affected by invasive Didymo algae, form the upper Buller River until it is joined by the Matakītaki, Mangles, Matiri and Maruia at the 'four rivers plain' near Murchison. Marlborough rivers are a total contrast to the western Nelson rivers, often being blue coloured from glacial silt and wide, braided and undergoing extremes of flow. Molesworth Station is New Zealand's largest farm. This huge trackless area features many small alpine tarns and lakes and its western and southern boundary is the Clarence River-one of New Zealand's longest and more remote catchments that drain the Inland and Seaward Kaikouras. The lower Clarence and the Awatere Rivers flowing northeast from Molesworth are heavily silt laden for much of the year. Completing the circle of the region we finish in the Marlborough Sounds main catchment, the Pelorus Valley. Beginning in the Richmond ranges between Nelson and Marlborough, this river gouges its way through steep native bush covered mountains to slow down to a gentle pace in lush dairy farm land before entering the sea at Havelock.

ACCESS PAMPHLETS

Access pamphlets providing detailed maps with access points and fishing information for Golden Bay and the Buller, Motueka, Pelorus and Wairau catchments are available from most licence agents, or online at www.fishandgame.org.nz

DIDYMO

Didymo is now present in many Nelson/Marlborough Rivers and anglers are reminded that they need to continue to disinfect their gear when moving between all rivers to minimise the risks of spreading didymo and other aquatic diseases. The most visible didymo growth occurs in Lake or Reservoir fed rivers such as the Upper Buller & Takaka Rivers. It is notable that this species is not yet present in the North Island.

TAGGED & FIN-CLIPPED FISH

Anglers are asked to report any tagged trout, and adipose fin-clipped trout and salmon to Nelson Marlborough Fish & Game.

BACKCOUNTRY FISHERIES

For more information on Nelson Marlborough backcountry fisheries or to obtain a backcountry licence go to www.fishandgame.org.nz

Regulations

1. DEFINITIONS

For interpretation of terms, refer to the First Schedule of this Notice or the Freshwater Fisheries Regulations 1983.

- 1.1 Fishing for coarse fish is prohibited in all waters of the Nelson/Marlborough Region.
- 1.2 There is no minimum size limit for trout or salmon.
- 1.3 All lakes, rivers and streams not mentioned in the table below (and those where Note 1 applies) are fly/spin only and the daily bag limit permits the taking of two sports fish, although only one fish may exceed 500mm from the nose tip to middle fork of tail. Season 1 October – 30 April.

2. ADDITIONAL REQUIREMENTS

Note 1 The daily bag limit permits the taking of two fish, although only one fish may exceed 500mm from nose tip to the middle for of tail.

Note 2 Down riggers are permitted when lake fishing.

Note 3 No licence holder shall fish for sports fish from any boat under motorised power in those parts of Lake Rotoiti within 100 metres from the centre of the meeting line with the lake and the Travers River, Coldwater Stream, Black Valley Stream and Buller River.

Note 4 No licence holder shall fish for sports fish from any boat under motorised power in those parts of Lake Rotoroa within 100 metres from the centre of the meeting line with the lake and the Sabine, D'Urville and Gowan rivers.

Note 5 Only Child licence holders may bait fish.

Note 6 No licence holder shall fish for sports fish in a designated Junior Fishery unless they are the holder of a child or junior licence.

Note 7 Waimea River Park Fishing ponds may on occasions be temporarily closed to facilitate the running of organised events or for maintenance. Closures will be made public in advance and advertised on the Nelson/Marlborough Fish & Game website and sign posted at the ponds.

Note 8 Backcountry Fishery.

All licence holders who fish in the backcountry fishery (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) must obtain a backcountry licence (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) and the provisions of that notice apply to this Notice.

Note 9 No licence holder shall be in possession of a sports fish which exceeds a maximum length of 400mm from the Goulter River.

3. OPEN SEASON, PERMITTED METHODS, DAILY BAG LIMITS

Water	Section of water	Open season	Authorised fishing methods	Daily bag limit by species			Refer clause 2 Additional Requirements
				Trout	Salmon	Other

	Backcountry Fishery that includes the upper Wairau River and tributaries (but excluding Fish Lake) upstream from Six-mile Creek	1 Oct - 30 Apr	FS	2			Notes 1, 8
Wairoa/ Waimea River (Nelson)	downstream of Lee River confluence	All year	FSB	2			

WEST COAST - Fish & Game Region⁹

Office: Airport Drive, Hokitika
Postal Address: PO Box 179 Hokitika 7842
Phone: (03) 755 8546
Email: westcoast@fishandgame.org.nz
Administration: Helen Cate
Manager: Dean Kelly
Officer: Baylee Kersten

⁹ The West Coast region is defined here: *New Zealand Gazette*, 24 May 1990, No. 83, page 1861.

West Coast

Fish & Game New Zealand's West Coast region extends from Kahurangi Point, north of Karamea, to Awarua Point south of Haast. In between lies some 2 million hectares, much of it wilderness and with more rivers and lakes than many people would fish in a lifetime. Increasing numbers of anglers' rate isolation, peace and solitude almost as highly as the opportunity to fish for wild trout. On the 'Coast' these attributes exist in abundance along with a surprising range of angling opportunity. Brown trout occupy a diverse range of habitats between the mountains and the sea including lakes and spring fed river tributaries. The more popular sea-run salmon fisheries are centred on South Westland lakes-which also contain resident lake stocks-and from January until April salmon can be expected around most major river mouths south of and including the Grey River. Barriers to access for anglers are, for the most part, dictated only by climate and terrain. All that we ask is that you respect West Coast waters, leave no litter and return fish that you cannot use.

ARAHURA RIVER ACCESS

Unlike most other West Coast rivers, the bed and banks of the Arahura River are not public land. In 1976 the Crown vested ownership of the Arahura River in the Mawhera Incorporation, a Māori landowners Trust, as Māori freehold land. The Mawhera Incorporation has a permit system in place to allow for public access. To obtain a permit from Mawhera Incorporation contact Rachel Scott (Mawhera Administrator), Proprietors of Mawhera Incorporation, Level 2, 83 Victoria Street, Christchurch, PO Box 13042, Christchurch 8141 T: (03) 964 7203 F: (03) 365 4098 E: admin@mawhera.org.nz.

HAUPIRI RIVER ACCESS

A public access agreement is in place for Heaphy Road which provides access to the upper Haupiri River. Vehicle access to the carpark up the valley is ensured for recreational and commercial recreation purposes. Anglers must check in at the Christian Community Trust office as the access road is through private property. Access over the Land is restricted to the marked Route and is only permitted during day light hours (except in the case of an emergency). Access from the Carpark onwards is restricted to access by foot along the marked walking Routes. No filming or recording of the Trust's members or property is permitted on the Route without the Trust's permission. The New Zealand Outdoors Access Code is to be complied with on the Route. No camping, lighting of fires, hunting or discharging of firearms is permitted on the Route or the Land.

WEST COAST SPORTSFISHING GUIDE

Fish and Game produce a regional map with instructions for access points and fishing information. Pamphlets are available at no cost from most licence agents and information centres or the West Coast Fish & Game office. A copy is also downloadable at www.fishandgame.org.nz.

ANGLING ETHICS

The West Coast region encourage all anglers to restrict their season take to no more than six salmon. This will ensure this limited fishery will remain sustainable and provide opportunities for all anglers into the future. The

West Coast region also encourages a voluntary catch and release limit of 6 trout per day. This is to minimise the impact of angling pressure in sensitive fisheries and ensure the catchability of fish for future generations.

BACKCOUNTRY FISHERIES

For more information on West Coast backcountry fisheries or to obtain a backcountry licence go to www.fishandgame.org.nz

Regulations

1. DEFINITIONS

For interpretation of terms, refer to the First Schedule of this Notice or the Freshwater Fisheries Regulations 1983.

2. ADDITIONAL REQUIREMENTS

Note 1 1.1 Daily Limit Bag.

Except for perch for which there is no daily limit, no licence holder shall on any one day take, kill or be in possession of more than 2 brown trout, 2 rainbow trout, 1 salmon.

Note 2 2.1 Fish Length.

There is no minimum length for trout and salmon in all waters of the Region except in lakes lanthe, Mapourika, Paringa, Moeraki and Ellery, where the minimum length for salmon shall be 450mm.

Note 3 3.1 Coarse Fish.

There are no special conditions relating to coarse fishing other than those provided for in the First Schedule to this Notice.

Note 4 4.1 Closed waters.

MacDonalds Creek at Lake Mapourika is closed to fishing at all times.

Note 5 5.1 Backcountry Fishery.

The Backcountry fishery in this region is defined as:

5.1.1 The *Karamea backcountry* fishery which is the Karamea Catchment upstream of the Kakapo River confluence.

5.1.2 The *Mokihinui backcountry* fishery which is the Mokihinui Catchment upstream of the Rough and Tumble Creek confluence.

5.1.3 All licence holders who fish in the backcountry fishery (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) must obtain a backcountry licence (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) and the provisions of that notice apply to this Notice.

3. OPEN SEASON, PERMITTED METHODS, DAILY BAG LIMITS

3.1 Open season for trout and perch, Permitted Methods, Daily Bag Limits

Water	Section of water	Open season	Authorised fishing methods	Daily bag limit by species Zero bag limit unless number shown			Refer Clause 2 Additional Requirements
				B Trout	R Trout	Perch	
All waters except where otherwise specified below		1 Oct – 30 Apr	FSB	2	2	No limit	Note 1, 2, 3, 4, 5
Ahaura River	downstream of Granite Creek	All year	FSB	2	2	No limit	Note 1, 2, 3
Arahura River	downstream of Milltown (Landsburgh) Bridge	All year	FSB	2	2	No limit	Note 1, 2, 3
Arawhata River	downstream of Haast-Jackson Bay Road	All year	FSB	2	2	No limit	Note 1, 2, 3
Arnold River		All year	FSB	2	2	No limit	Note 1, 2, 3
Big Ditch Creek	downstream of State Highway 67	All year	FSB	2	2	No limit	Note 1, 2, 3
Big Totara River	downstream of State Highway 6	All year	FSB	2	2	No limit	Note 1, 2, 3
Buller River	downstream of Lyall confluence	All year	FSB	2	2	No limit	Note 1, 2, 3
Cascade River	downstream of Martyr confluence	All year	FSB	2	2	No limit	Note 1, 2, 3

NORTH CANTERBURY - Fish & Game Region¹⁰

Office: 595 Johns Road, Harewood, Christchurch 8051
Postal Address: PO Box 50, Woodend 7641
Phone and Fax: 03 366 9191
Email: northcanterbury@fishandgame.org.nz
Administration: Debbie Ambler
Chief Executive: Rasmus Gabrielsson
Environmental Officer: Lyndon Slater
F&G Officers: Emily Craig, Richard Cosgrove, Matt Garrick, Harry Graham-Samson

¹⁰ The North Canterbury region is defined here: *New Zealand Gazette*, 24 May 1990, No. 83, at page 1861, as amended by the *New Zealand Gazette*, 3 September 1992, No. 141, at page 2958.

The North Canterbury region offers much to the angler. The Rakaia, Waimakariri, Hurunui and Waiau rivers offer sea-run salmon fishing in the summer months. The best time to plan a trip is during February when river flows tend to be stable after the period of snow melt in the Southern Alps. Most salmon are caught on heavy spinning tackle upriver or on specialised long-distance surf casting tackle in the surf next to the river mouth. With an average size of around 7kg, salmon are one of the most highly sought-after sports fish in the country. A season bag limit applies for sea run salmon, see the notes below for more details.

In addition to the salmon fishery, North Canterbury also offers great fishing for other species. Over 30 high country lakes offer brown and rainbow trout with a few also offering landlocked Chinook salmon. The upper reaches of the braided rivers also offer high quality brown and rainbow trout fishing with very big fish in places. The lower reaches of the same rivers provide excellent sea-run trout fishing as well. Very large runs of fresh silver sea-run brown trout converge on the tidal areas of the salmon rivers, particularly during the months of December and January.

For more information on sports fishing in North Canterbury, consult the fishing locations and access pages of the Fish & Game website, there are downloadable pdf guides for the Rakaia River, Waimakariri River, Hurunui and Waiau Rivers, the High-Country Lakes, Junior Fisheries and Close to Christchurch.

North Canterbury has four designated backcountry fisheries requiring anglers to be holders of a full season licence and a backcountry licence. For more information or to obtain a backcountry licence go to www.fishandgame.org.nz

Boat Fishing: To clarify for anglers, the use of boats and/or flotation devices in the North Canterbury waterbodies is set by the Regional or District councils not by Fish & Game. It is important to note that those regulations can change without any notice. Please follow the direction of the relevant council.

Pollution Hotline: To report incidences of pollution or other damage to our waterways, please ring Environment Canterbury's 24-hour Pollution Hotline on 0800-76 55 88 and tell them that you want to be advised of the outcome of their investigation.

Regulations

1. DEFINITIONS

For interpretation of terms, refer to the First Schedule of this Notice or the Freshwater Fisheries Regulations 1983.

2. ADDITIONAL REQUIREMENTS

- Note 1**
- 1.1** No licence holder shall on any one day take, kill or be in possession of more than 4 sports fish.
 - 1.2** No licence holder shall be in possession of a trout or salmon less than 300mm anywhere in the Region.

North Canterbury

- 1.3 No licence holder shall fish for salmon in any river from 1 May to 30 September.
- 1.4 Scented artificial lures may be used in all waters, other than fly fishing only waters, when actively retrieved so as to imitate a moving bait fish.
- 1.5 No person may take salmon from any river between the hours of 11pm to 4am in December and January, and between 10pm and 5am for any other month.
- 1.6 No licence holder shall fish for sports fish within a 100-metre arc of the outfall of any licensed fish farm, with the exception of the Tentburn Outfall, where fishing for trout and salmon is permitted, but no fishing is allowed on the culvert.

Note 2 2.1 **Boat Fishing:**
Fishing from boats is permitted.

Note 3 3.1 Fishing from boats which are not simultaneously being propelled by a motor, is permitted.

Note 4 4.1 The use of motorised craft is prohibited.

Note 5 5.1 The daily limit bag for Lake Coleridge shall be 4 sports fish.

Note 6 6.1 No licence holder other than a Child or Junior licence holder shall fish in the Christchurch Groynes Fishing Lakes or Lake Courtenay at Kaiapoi.

Note 7 7.1 **Coarse Fishing:**
Fishing for coarse fish can only occur in Designated Coarse Fishing Waters which are: the Avon River downstream of Barbadoes Street, Lake Forsyth, Halswell Canal downstream of Duck Pond Road, Halswell River downstream of Seabridge Road, Kaiapoi Lakes, Monopolies Pond, Okana River downstream of State Highway 75 and Lake Rotokohatu. See First Schedule for permitted methods.

7.2 The daily limit bag for tench is 1 fish and no licence holder shall be in possession of a tench that exceeds 150mm.

7.3 No licence holder shall be in possession of a perch taken from the Kaiapoi Lakes that exceeds 250mm.

Note 8 8.1 No licence holder other than a Child or Junior licence holder shall bait fish for trout.

Note 9 9.1 No licence holder shall be in possession of a sports fish which exceeds a maximum length of 400mm from that water.

Note 10 10.1 No licence holder shall be in possession of a Chinook salmon taken from Lake Sumner or Loch Katrine.

Note 11 11.1 **Backcountry Fishery:**
All licence holders who fish in a backcountry fishery (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) must first obtain a backcountry licence (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) and the provisions of that notice apply to this Notice.

Note 12 **Sea Run Salmon Season Bag Limit:**

12.1 All licence holders who fish in a sea run salmon water (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) must first obtain a sea run salmon licence (as defined by the Sports Fisheries Licences, Fees, and Forms Notice 2022).

12.2 All holders of a Sea Run Salmon Licence are eligible to receive a Season Bag Limit Card. Family licence holders that have a Sea Run Salmon Licence are eligible for one Season Bag Limit Card per family licence.

12.3 No licence holder shall fish for, take, kill or be in possession of a salmon from sea run salmon waters within the North Canterbury Fish and Game Region without holding a Season Bag Limit Card.

12.4 No licence holder shall over the length of the season take, kill or be in possession of more than two salmon from sea run salmon waters in both the North Canterbury and Central South Island Fish and Game regions combined.

12.5 Immediately upon taking or killing a salmon from sea run salmon waters the licence holder must complete an entry in their Season Bag Limit Card for that fish.

12.6 All licence holders that fished for salmon from sea run salmon waters in either the North Canterbury or Central South Island Fish and Game regions must return their Season Bag Limit Card to either the North Canterbury or Central South Island Fish and Game Council at the end of the season, regardless of how many such salmon were taken or killed.

12.7 All holders of a season bag card must produce it to a Fish and Game Ranger on demand.

 Resource Officer: Angela Christensen

¹¹ The Central South Island region is defined here: *New Zealand Gazette*, 24 May 1990, No. 83, page 1861, as amended by *New Zealand Gazette*, 29 August 1991, No. 129, page 2786, and as further amended by the *New Zealand Gazette*, 3 September 1992, No. 141, at page 2958.

Fish & Game New Zealand's Central South Island region (CSI) extends from the south bank of the Rakaia River in the north, to Moeraki in the south. The CSI sports fishery offers a lifetime of opportunity as it sustains six sports fish species in a myriad of waterways and landscapes that lie between the Southern alps, high-country basins, and the Canterbury Plains.

Smaller rivers including the Opihi-Temuka and Ashburton together with many high-country lakes are habitat to prized brown and rainbow trout fisheries. Fontinalis (brook trout) are also present in some of these waters. In fact, CSI has some of the best fontinalis fishing in the country, with Lake Emily being renowned as the place in New Zealand to catch a trophy.

The Mackenzie Basin contains some of the most popular and picturesque fishing spots in New Zealand whilst still offering some secret spots for adventurous anglers. The Tekapo River and Lake Benmore contain good numbers of trout which are not overly difficult to catch. The canals that carry water for the many hydroelectric power stations in the Mackenzie Basin are world-famous for producing extremely large trout. Local and visiting anglers flock to the canals for their ease of access, scenic surroundings, year-round fishing and for the chance to catch wild trophy-size trout or salmon released from the commercial salmon farms that operate within the canals. Rainbow trout commonly reach 4-10kg and each season several brown and rainbow trout weighing 12-18kg are caught. Although yet to be proven, many anglers believe the canals can produce a trout weighing 50-pounds (22.7kg).

The Ohau River between lakes Ruataniwha and Ohau is a designated backcountry fishery and all anglers are required to obtain a backcountry licence endorsement. During September and October the river is a controlled area. To maintain the river's high-country fishery aesthetics angler numbers are limited during September and October. Ballot draws are held to fairly and randomly issue controlled period licences for specified 2-3 day fishing allocations. To obtain your backcountry licence endorsement and for information about entering the ballot draws please visit our website www.fishandgame.org.nz

With their headwaters in the Southern Alps, the Waitaki and the Rangitata are the region's biggest rivers. These are noted sea-run Chinook salmon fisheries and usually produce their best fishing from December through March. Annual monitoring of these once productive salmon fisheries has established that populations are critically low and require restrictive regulations to ensure viable populations reach the headwaters to spawn. A sea-run salmon season bag limit was introduced in the 2021-22 sports fishing season across the CSI and North Canterbury Fish & Game regions as a tool to limit harvest while maintaining an open season for this treasured pastime.

The invasive algae didymo is present in many of the region's waterways. Please help us stop the spread of didymo to new areas by restricting use of fishing gear to exclusive use in a single waterway. If you move gear between waterways you must CHECK, CLEAN and DRY. For more information on didymo visit www.biosecurity.govt.nz.

SEA RUN SALMON LICENCING AND INFORMATION

For information about obtaining a Sea Run Salmon Licence and Season Bag Limit Card visit our website www.fishandgame.org.nz

FISHING AND ACCESS INFORMATION

Fishing and access information can be found by visiting our website www.fishandgame.org.nz

1. DEFINITIONS

For interpretation of terms, refer to the First Schedule of this Notice or the Freshwater Fisheries Regulations 1983.

2. ADDITIONAL REQUIREMENTS

- Note 1**
- 1.1** First Schedule conditions apply.
 - 1.2** No licence holder shall continue to fish for sports fish at any time after having already taken a bag limit for that species.
 - 1.3** No licence holder when fishing for sports fish shall use any unsporting device or method.
 - 1.4** No licence holder shall continue to fish on any day after having foul hooked three sports fish, even though any such sports fish have been returned immediately in accordance with the First Schedule of this Notice.
 - 1.5** Any licence holder who lands a sports fish that will not be kept shall immediately return it with as little injury as possible into the water from which it was taken.
 - 1.6** There are no restrictions on the hours of fishing except that no licence holder may fish for, take or kill sea run chinook salmon in any river between the hours of 11pm and 4am in December and January, and between 10pm and 5am for any other month of the year.
 - 1.7** There is no minimum length for trout.
 - 1.8** The minimum length for salmon killed in waters of the Region shall be 300mm except in lakes where the minimum length shall be 250mm and in Lake Heron where the minimum length shall be 300mm and the maximum length shall be 450mm.
 - 1.9** There is no daily bag limit and no minimum length for coarse fish except in designated coarse fishing waters (see Note 2).
 - 1.10** No licence holder shall fish for sockeye salmon between 1 March and 30 April in - Deep Stream (Lake Aviemore), Otematata River, Tekapo River, Mary Burn, Grays River, Larch Stream, Upper Ohau River, Lower Ohau River, Omarama Stream, Otematapaio River, Twizel River, or any other stream or river where sockeye salmon are present.
- Note 2**
- 2.1** Coarse fishing waters - Centennial Park Lake (Timaru), Island Stream, Saltwater Creek, and Waiareka Creek. Daily limit 1 tench. No daily limit for perch. Minimum size 450mm for tench and 250mm for perch.
- Note 3**
- 3.1** No sports fishing from boats in lakes, Camp, Denny, Donne, Emily, Spider.
- Note 4**
- 4.1** No sports fishing from any unmoored boat in Lake MacGregor and Maori Lakes.
- Note 5**
- 5.1** A licence holder when fishing for sports fish in the Rangitata River or its tributaries may use, seaward of a line extending through two GPS points (-44.181807°, 171.499428° & -44.179319°, 171.504111°) and where part of the line is marked by two poles situated approximately 1km from the coast, an artificial fly only if the total weight of everything attached to the cast does not exceed 28g.
 - 5.2** A licence holder when fishing for sports fish in the Rangitata River or its tributaries may cast other than from the reel or retrieve other than by winding the reel only when using bait or fly fishing, or when fishing with an artificial fly seaward of a line extending through two GPS points (-44.181807°, 171.499428° & -44.179319°, 171.504111°) and where part of the line is marked by two poles situated approximately 1km from the coast.
- Note 6**
- 6.1** No licence holder shall fish in Lake Alexandrina using down riggers, paravanes, metal cored or wire lines and weights to assist sinking of trolled lures.
- Note 7**
- 7.1** A licence holder may fish from any boat in Lake Middleton, Kellands Pond and Wairepo Arm except when being propelled by a motor.
- Note 8**
- 8.1** **Backcountry Fishery.**
All licence holders who fish in the backcountry fishery (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) must obtain a backcountry licence (as defined by the Sports Fisheries Licences, Fees, and Forms Notice 2022) and the provisions of that notice apply to this Notice.

Note 9 Controlled Area

- 9.1** In the controlled area, a controlled period applies. All licence holders who fish in the controlled area must first obtain a controlled period licence (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022).
- 9.2** Controlled Period. Controlled period means the period beginning 1 October 2022 and ending on 4 November 2022, and 2 September 2023 and ending on 30 September 2023.
- 9.3** Controlled Period Licence. A controlled period licence means a licence that entitles the following persons to fish for sports fish in the controlled area during the controlled period:
 - 9.3.1** The holder of the controlled period licence; and
 - 9.3.2** Up to 3 companion anglers named in the controlled period licence who hold backcountry licences, provided that the maximum size of any group for any one permit is 4.

Note 10 Sea Run Salmon Season Bag Limit

- 10.1** All licence holders who fish in a sea run salmon water (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) must first obtain a sea run salmon licence (as defined by the Sports Fisheries Licences, Fees, and Forms Notice 2022).
- 10.2** All holders of a Sea Run Salmon Licence are eligible to receive a Season Bag Limit Card. Family licence holders that have a Sea Run Salmon Licence are eligible for one Season Bag Limit Card per family licence.
- 10.3** No licence holder shall fish for, take, kill or be in possession of a salmon from sea run salmon waters within the Central South Island Fish and Game Region without holding a Season Bag Limit Card.
- 10.4** No licence holder shall over the length of the season take, kill or be in possession of more than two salmon from sea run salmon waters in both the Central South Island and North Canterbury Fish and Game regions combined.
- 10.5** Immediately upon taking or killing a salmon from sea run salmon waters the licence holder must complete an entry in their Season Bag Limit Card for that fish.
- 10.6** All licence holders that fished for salmon from sea run salmon waters in either the Central South Island or North Canterbury Fish and Game regions must return their Season Bag Limit Card to either the Central South Island or North Canterbury Fish and Game Council at the end of the season, regardless of how many such salmon were taken or killed.
- 10.7** All holders of a Season Bag Limit Card must produce it to a Fish and Game Ranger on demand.

Administration Officer: Sharon Milne

Chief Executive: Ian Hadland

F&G Officers: Jayde Couper, Steve Dixon, Bruce Quirey,
Ben Sowry, Helen Trotter

Environmental Officer: Nigel Paragreen

¹² The Otago region is defined here: *New Zealand Gazette*, 24 May 1990, No. 83, page 1861.

Otago Fish and Game Region extends from Shag Point/Matakatea on the South Island's East Coast south to The Brothers Point in the Catlins area. The region runs inland to include the whole of both the Clutha/Mata-au and Taieri River catchments as well as several smaller coastal river catchments such as the Catlins, Tahakopa, Tokomairiro, Waikouaiti and Shag. The Otago Region has a range of fishing opportunities set in diverse landscapes from pristine high country and barren Central Otago to the lush lowland pastures of coastal Otago. All anglers and all methods are catered for.

The large southern lakes - Wānaka, Wakatipu, Dunstan and Hāwea - hold good stocks of salmon, rainbow and brown trout and are popular with boat anglers. If smaller fishing water is your preference, then the productive coastal streams and the Taieri or Pomahaka rivers are worth a visit. Perch can be found in coastal reaches, including the Taieri and Clutha/Mata-au rivers, and lowland lakes such as Waiholā, Waipori and Tuakitoto. In the Maniototo, in addition to the Taieri River, there are some excellent irrigation dams. These smaller reservoirs are put-and-take fisheries and Fish & Game regularly stocks them with trout.

Please respect our angling waters by obeying the angling restrictions applying to them, not leaving rubbish and obtaining the landowner's permission where required.

ANGLING INFORMATION

Access pamphlets including maps are available for many of the popular waters. Pamphlets are available to download on the Otago pages of the website www.fishandgame.org.nz or from selected outlets. You may also visit the office or email us to have them posted to you. For regular updates, you can find Otago Fish and Game Council on Facebook.

BACKCOUNTRY FISHERIES

Otago has nine designated backcountry fisheries requiring anglers to be holders of a full season licence and a backcountry licence. For more information or to obtain a backcountry licence go to www.fishandgame.org.nz. To manage pressure and provide the best angling experience, the Greenstone River has a controlled fishery period from 1 February to 31 March. A voluntary beat system operates in the Nevis River.

LAKE AND RIVER CONDITIONS

For up-to-date weather information visit www.metservice.com or www.yr.no/en. Another source of information on river conditions is the Otago Regional Council's Water Info website listed on www.orc.govt.nz/managing-our-environment/water/water-monitoring-and-alerts.

POLLUTION COMPLAINTS

For complaints about pollution or damage to rivers contact the Otago Regional Council's 24-hour Pollution Hotline on 0800 800 033 in the first instance.

Regulations

1. DEFINITIONS

For interpretation of terms, refer to the First Schedule of this Notice or the Freshwater Fisheries Regulations 1983.

2. ADDITIONAL REQUIREMENTS

- Note 1**
- 1.1** No fishing for sports fish is permitted at any time in all waters in which sports fish are held in captivity for display, hatching, or other purposes, or within a distance of 100m from any part of the outer boundaries of such waters.
- 1.2** Except in the case of perch for which there is no daily limit, no licence holder shall on any one day take and kill or be in possession of more than the prescribed daily limit from the waters specified in clauses 2 and 3.
- 1.3** In addition to the daily limits specified in clauses 2 and 3 and note 1.2, no licence holder shall on any one day take, kill or be in possession of more than 6 sports fish from any waters except Lake Onslow.
- 1.4** A licence holder may continue to fish for a particular species of sports fish on any day on which he or she has already killed a limit bag for that species as long as fish taken are immediately returned with as little injury as possible into the water from which it was taken.
- 1.5** In all waters of the region there shall be no minimum length except in the -
- 1.5.1** Nevis River where no licence holder shall take or be in possession of any sports fish greater than 400mm in length.
- 1.5.2** Clutha River and its tributaries downstream of Roxburgh Dam and all other waters running into the sea, where no licence holder shall take or be in possession of any salmon less than 450mm in length.
- Note 2**
- 2.1** Licence holders may fish from any boat, canoe, pontoon or flotation device.
- 2.2** Licence holders fishing from boats that are being propelled by a motor must stay at least 100 metres from any anglers fishing from the shore.
- Note 3**
- 3.1** Licence holders may fish from any boat, canoe, pontoon or flotation device provided it is not being propelled by a motor.
- Note 4**
- 4.1** No licence holder may fish from any boat, canoe, pontoon or flotation device except in the tidal reaches of this waterway if applicable.
- Note 5**
- 5.1** When playing a salmon in the Clutha River downstream of Roxburgh Dam, a gaff may be used to secure or land that salmon if it is greater than 450mm in length.
- Note 6**
- 6.1** No licence holder shall fish with a float or floating device on the line in that section of the Clutha River downstream of Roxburgh Dam to the Roxburgh Township Bridge.
- Note 7**
- 7.1** Closed to all sports fishing in September except for Otago Fish and Game controlled fishing events.
- Note 8**
- 8.1** **Backcountry Fishery.** All licence holders who fish in a backcountry fishery (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) must first obtain a backcountry licence (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022, the provisions of that notice apply to this notice).
- 8.2** The use of any legal lure with more than one hook with one point in a backcountry fishery is prohibited.
- Note 9**
- 9.1** **Controlled Area.** In the controlled area, a controlled period applies. All licence holders who fish in the controlled area must first obtain a controlled period licence (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022).
- 9.2** **Controlled Period.** Controlled period means the period beginning on 1 February 2023 and ending on 31 March 2023.
- 9.3** **Controlled Period Licence.** A controlled period licence means a licence that entitles the following persons to fish for sports fish in the controlled area during the controlled period, but only during the day and on the reach, specified in the licence.
- 9.3.1** the holder of the controlled period licence; and
- 9.3.2** if the holder also holds a backcountry licence that is endorsed on a family licence, the holder's spouse or partner and, if accompanied by the holder or the holder's spouse or partner, any member of the holder's family; and
- 9.3.3** any one or more companion anglers named in the controlled period licence who hold backcountry licences.

3. OPEN SEASON, PERMITTED METHODS, DAILY BAG LIMITS

Water	Section of water	Open season	Authorised fishing methods	Daily bag limit by species Zero bag limit unless number shown		Refer clause 2 Additional Requirements
				Trout	Salmon	
All lakes, rivers and streams within the Clutha River catchment lying upstream of Clyde Dam not mentioned in clause 3 for this region		1 Nov – 31 May	FS	1		Notes 1, 4
All lakes, rivers and streams within the Clutha River catchment lying downstream of Clyde Dam and any other catchments flowing to the sea not mentioned in clause 3 for this region		1 Oct – 30 Apr	FSB	2		Notes 1, 4, 5, 6

Field Officers: Bill Jarvie, Cohen Stewart, Erin Garrick

Resource Management Officer: Jacob Smyth

¹³ The Southland region is defined here: *New Zealand Gazette*, 24 May 1990, No. 83, page 1861.

The Southland region is one of the strongholds of brown trout in New Zealand. Regular summer rain means that the rivers and streams of the region usually flow strongly all through the fishing season. However, this also means that rainfall can at times limit angling activities and anglers should have a good knowledge of the region so that lakes and spring creeks, which are not affected by flooding, can be fished. The Southland plains and hills offer a large number of easily accessible rivers and streams which cater for all types of angling. Most waters have easy access points, many of which are marked with Fish & Game signage.

The Mataura is the best-known Southland River. It flows through the town of Gore, "The Brown Trout Capital of the World". This reputation brings an ever-increasing number of anglers into our province to fish this and other rivers like the Aparima and Oreti. While the headwaters of these rivers have reputations for producing big fish, they are often very hard to catch and are less numerous. The lowland rivers are much more productive and accessible and, while their trout are smaller on average, they can provide excellent angling, especially for family groups and those starting out on a fishing career.

Rainbow trout are restricted to the western lakes and their tributaries, and the Mararoa and Waiau River system. Didymo, the invasive alga that smothers river beds, occurs in several Southland rivers, affecting the Mararoa and the Waiau the worst. Anglers need to carefully clean their gear between rivers because there are rivers where it hasn't got to yet. The rivers of Fiordland are pristine, and it is important that didymo does not get introduced to these. Anglers fishing in these rivers must get a Clean Gear Certificate before fishing there. Details are on the Web site www.fishandgame.org.nz and at the F&G office.

The large lakes, Te Anau and Manapouri, and the smaller lakes Monowai and North Mavora are ideal for trolling from a boat. While they don't have large populations of trout compared to lakes farther north, they are beautiful scenic gems where competent anglers can expect to catch several fish in a day's fishing. We have trolling brochures and a video on the F&G website to help anglers maximise their chances of catching a fish or two.

In midsummer Southland's mid reach and easily accessible headwater rivers can get quite crowded so it's important that anglers are considerate of others and give them space to enjoy trout fishing as it should be - "a contemplative person's recreation". We have voluntary beat systems on the Upper Oreti and we encourage anglers to ensure they don't walk down onto others who may be fishing upstream, to maintain peace and harmony on all of our river banks.

Salmon (chinook) angling in Southland is worth a try too. Each year a few dozen sea run salmon are caught in the main rivers in February and March. Lake Manapouri has a developing chinook population. Special regulations apply to river salmon fish.

1. DEFINITIONS

For interpretation of terms, refer to the First Schedule of this Notice or the Freshwater Fisheries Regulations 1983.

2. ADDITIONAL REQUIREMENTS

- Note 1** 1.1 Fishing for coarse fish in all waters of Southland region is prohibited.
- 1.2 With the exception of perch for which there is no limit, no licence holder shall on any one day take, kill or be in possession of -
- 1.2.1 more than 1 salmon from any waters of the region.
 - 1.2.2 more than 4 sports fish.
- 1.3 There are no minimum or maximum lengths for sports fish in Southland region.
- Note 2** 2.1 No licence holder may take, or attempt to take, salmon from any river during the months of April and May.
- Note 3** 3.1 Scented artificial lures may be used in Fly and Spin waters, when actively fished so as to imitate a bait fish.
- Note 4** 4.1 Molluscs or parts of molluscs may be used in bait fishing waters.
- Note 5** 5.1 No licence holder shall fish from any motorised boat (including electric motors) in Lake Thomas and South Lake Mavora.
- Note 6** 6.1 No licence holder shall fish from any boat or any form of flotation device.
- Note 7** 7.1 No licence holder shall fish for sports fish in a designated Junior Fishery unless they are the holder of a child or junior licence.
- Note 8** 8.1 **Backcountry Fishery.** All licence holders who fish in the backcountry fishery (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) must obtain a backcountry licence (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022) and the provisions of that notice apply to this Notice.
- Note 9** 9.1 **Controlled Area.** In the controlled area, a controlled period applies. All licence holders who fish in the controlled area must first obtain a controlled period licence (as defined by the Sports Fish Licences, Fees, and Forms Notice 2022).
- 9.2 **Controlled Period.** Controlled period means the period beginning on 1 November 2022 and ending on 31 May 2023.
- 9.3 **Controlled Period Licence.** A controlled period licence means a licence that entitles the following persons to fish for sports fish in the controlled area during the controlled period and on the reach specified in the licence:
- 9.3.1 the holder of the controlled period licence; and
 - 9.3.2 up to 3 companion anglers named in the controlled period licence who hold backcountry licences, provided that the maximum size of any group for any one permit is 4.
 - 9.3.2 up to 3 companion anglers named in the controlled period licence who hold backcountry licences, provided that the maximum size of any group for any one permit is 4.

3. OPEN SEASON, PERMITTED METHODS, DAILY BAG LIMITS

ORVIS[®] PRO APPROACH SHOES

**ABRASION
RESISTANT**

**MICHELIN
SOLES**

**WET
TRACTION**

UNISEX

ADVENTURE BEGINS WITH THE APPROACH

- Versatile wet wading, hiking, and boat shoe
- Lightweight seamless PU cage construction
- Integrated, breathable Ariaprene sock prevents debris from entering
- Non-marking version of the Michelin Outdoor Extreme rubber outsole
- 43% better wet rubber traction and 25% higher abrasion resistance than the competition
- Removable 3D molded OrthoLite insole
- Single density phylon midsole
- Integrated lace hood allows laces to easily tuck away
